*Sweet photos. Sweet family and sweet Robbin. My heart breaks for the family... but I believe Robbin is having a blast in the portals of Glory! She has victory through the precious Savior! We will miss her and her love for the Alabama Roll Tides but she has Joy unspeakable and full of Glory! Carolyn, Jerry and Dawn we love you all dearly and please know we are here if you need to talk or a shoulder to cry on. Love and prayers for all of you, Linda*

“ My favorite memory (there are many but this stands out) of you was spending weekends with your grandparents. We were young and didn't have many responsibilities but they were just a short drive up the interstate and it was fun to leave everything behind just the same. I'm pretty sure we listened to every sing Eric Clapton ever sang on those trips! I used to love to hear the stories you would tell about paw paw letting you drive his truck or you catching the biggest fish. You always liked simple things and I used to joke that you were born two centuries later than you should have been. You made everyone around you feel like they could accomplish anything and looking back I can see that all of the good things I accomplished was because of your support. It was a pleasure to have known you and the world is diminished by your absence
